Transfer VHS to DVD

Standard Pricing

For transfers to DVD, we charge by the tape. A DVD can hold up to 2 hours of video. If your VHS tapes are a full two hours, plan on one disc for each tape. If you have multiple short tapes, we can combine them on to a single disc for no additional charge. Our standard pricing for VHS to DVD transfers is as follows

Quantity	No Imprint	Black Imprint
1-3	\$19.99	\$29.99
4-9	n/a	\$29.99
10-19	n/a	\$27.99
20-29	n/a	\$25.99
30-39	n/a	\$23.99
40-49	n/a	\$21.99
50+	n/a	\$19.99

Prices include a windowed paper sleeve. Additional packaging options are available for an additional charge. Prices do not include applicable sales tax.

8mm & Super 8mm Film Transfer

Our 8mm Film Transfer Process

Once we receive your films, they are carefully labeled in the order you indicate and prepared for transfer. Your films are then inspected and cleaned, and smaller 3 inch reels are spliced together on to larger reels in preparation for transfer.

A trained operator then utilizes custom-engineered telecine equipment to project your movie film directly into a professional video camera. Our modified equipment ensures the entire frame of film including the sprocket holes is visible during the conversion (the sprockets are cropped out later). Our Sony DXC camera with 1,140,000 pixels offers 40% higher resolution than any MiniDV or DV camcorder. We are capable of focusing on the individual grains of film which makeup each frame. Because the grains of film are visible we can know that the resolution of the transfer is limited only by the film itself and not the camera or transfer process. Your picture will be the absolute best as the film allows it to be.

Once the film is transferred, we create a DVD master with custom chapter markers for each reel. Using top of the line Taiyo Yuden media (rated for 100 years) and our proven thermal printing technology, we create your finished DVDs ready for you and your family to enjoy.

Standard Pricing

Our standard pricing for 8mm Film Transfers is \$29.99 setup fee plus \$0.16 per foot. The setup fee includes cleaning, splicing, and your first copy on DVD.

How much film do you have? We compute the length of your film based upon the diameter of your film reels. The following table will enable you to compute exactly how much film you have.

Reel Diameter	Length	Cost per Reel
3"	50 feet	\$8.00
4"	100 feet	\$16.00
5"	200 feet	\$32.00
6"	300 feet	\$48.00
7"	400 feet	\$64.00

Slide, Photo & Document Scanning

Our Process

Granted we may charge a little more than some of our competitors, but most of our clients have found the quality of our work well worth the price. Besides, you don't have to try and keep 784 photos in an intelligible order, while cramming all of them into a box to ship to somewhere you've never heard of. Just bring them in and we'll take care of the rest.

Standard Pricing

Our standard pricing for image scanning is as follows:

Quantity	Cost per Scan
1-24	\$24.99 flat rate
25-249	\$1.00
250-499	\$0.89
500-999	\$0.79
1,000-2,499	\$0.59
2,500-4,999	\$0.49
5,000+	\$0.39

**Prices include a windowed paper sleeve.
We can scan images up to 8.5" x 11" in size.
Prices do not include applicable sales tax.**

Digital Photo Transfer - Standard Pricing: \$0.15 each

If you have your images already in a digital format and need them transferred into a video slide show or copied from one media type to another (e.g. flash drive to CD, etc)

Digital Video Transfer - Standard Pricing: \$20 each

If you already have your video in a digital format and need it transferred into a web video, DVD or copied from one media type to another (e.g. flash or hard drive to DVD, etc). This does not include the creation of the video or editing, just the transfer.

Transfer Audio Cassette to CD

Our Process

For transfers to CD, we charge per tape. A CD can hold up to 80 minutes of audio. If your tape is over 80 minutes, we'll put each side on its own disc. If you have multiple short tapes, we can combine them on to a single disc (tape change fee applies). Our standard pricing for cassette to CD transfers is as follows.

Standard Pricing

Quantity	Cost per Tape
1-9	\$19.99

Prices include a black thermal imprint and a paper windowed sleeve. Additional packaging options are available for an additional charge. Prices do not include applicable sales tax. There is a \$5 tape change fee for each tape beyond the first that we put on a disc.

This pricing guide covers most standard projects we see and gives you an idea of what you can expect to pay. However we understand that each project is unique and our standard pricing may not cover your particular situation. Give us a call and we'll work out a quote for you.

Transfer Audio Reel-to-Reel to CD

Our Process

For transferring reel-to-reel audio tape to CD we charge \$35 per half hour of audio. The total cost depends on two factors: size of reel and speed it was recorded at.

A CD can hold up to 80 minutes of audio. If your tape is over 80 minutes, we'll put each side on its own disc. If you have multiple short tapes, we can combine them on to a single disc (tape change fee applies). Our standard pricing for reel-to-reel audio tape to CD transfers is as follows.

Standard Pricing

Quantity	Cost per Tape
Per 30 minutes	\$35.00

Prices include a black thermal imprint and a paper windowed sleeve. Additional packaging options are available for an additional charge. Prices do not include applicable sales tax. There is a \$5 tape change fee for each tape beyond the first that we put on a disc.
